

3rd Annual Build Like A Beaver Workshop 2024

Learn to:
See like a Beaver!
Design like a Beaver!
Build like a Beaver!

October 8th - 11th, 2024
Plumas National Forest
Clarks Creek

Spend time with top experts in the field of Process Based Restoration as they guide you to view the landscape through the lens of water and all its glory!

California Process Based Restoration Network is excited to present its 3rd annual hands-on workshop October 8th - 11th, 2024. Get ready to jump in and get wet in beautiful Clarks Creek near Antelope Lake in Plumas County!

- Work alongside the most experienced instructors and practitioners in the region.
- Learn to look at the landscape from a watershed perspective, and how to implement designs to achieve those goals..
- Understand how design decisions impact overall restoration goals, and how implementation over time can achieve those.
- Gain understanding of different structure types, when and where to employ them, and how to build them!
- Get in on the most recent innovations and research

CAL-PBR Training includes 4 days of tours, discussions and onsite building opportunities. We will send out the registration link, agenda, meal info and fee schedule very soon. Stay tuned! This workshop is offered at no cost to tribes.

To Register, visit: www.calpbr.org

Paige Tomson, 303-901-1389, paige@swiftwaterdesign.com

Note from Paige Tomson, workshop coordinator: Although I have a Swift Water Design email address, this is a workshop put on by the [CAL-PBR Network](#), and I happen to be doing the coordinating and communications. People across a wide spectrum of the PBR world are working together to put on this exciting workshop, and we look forward to meeting you and learning from one another!
